

REMARKS

The Examiner requires the applicant elect a single one of the following inventions.

Group I. Claims 1-9, drawn to peptides with pharmaceutically acceptable salts and a composition comprising said peptides, and to a method of treatment of cancer by administering said peptides thereof, or

Group II. Claims 10-13, drawn to a solid phase synthesis process for the preparation of a peptide.

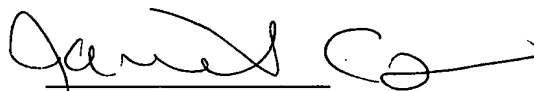

Applicants respectfully traverse this requirement.

In response to this requirement, applicants elect the species of Group I.

Applicants preserve all rights to file one or more divisional applications directed to the nonelected inventions.

Applicants submit that the application is in condition for allowance and favorable consideration is requested.

Respectfully submitted,
